

Methods used and studies identified in rapid evidence assessment update in 2017

Summary of methods use in update

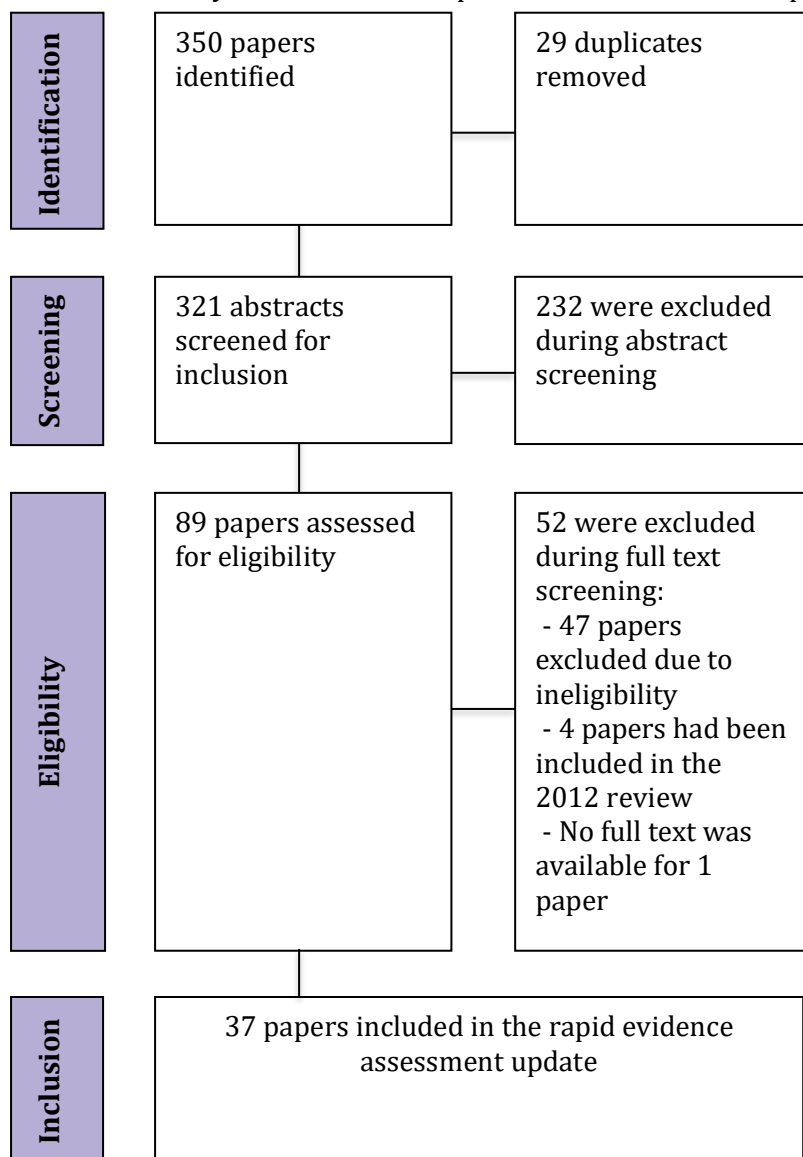

Searches were conducted in June 2017. PsycINFO, MEDLINE, CINAHL and ERIC databases were searched using the same search terms used in 2012:

((parent* N3 educat*) or (parent* N3 program*) or (parent* N3 train*) or (parent* N3 promot*) or (parent-train*) or (parent-educat*) or (parent-promot*)) and Australia

Only English language papers available online were included. Studies and additional data were not sought from authors. An in-depth analysis of study bias, quality and effects was not undertaken.
